

Babysitting facility

Connecticut Maharashtra Mandal's mission is to bring all the age groups together to enjoy the Maharashtrian culture. We are also committed to providing quality entertainment for both children and adults.

Younger children may not be interested or be an appropriate audience for some of the programs. We would like to enable parents of young children to be able to attend these programs by facilitating babysitting services for them. In consideration to the rest of the audience, we sincerely request parents to refrain from bringing their children into the main hall during the program.

CTMM assumes no responsibility or liability and parents avail of this facility at their own risk.

However, CTMM will take all efforts to make it easy for parents and children. CTMM will hire a hall or designate an area for babysitting. Typically, teenagers of our members volunteer to help with the babysitting, along with an adult designated to supervise the teenagers and all the children. We may sometimes have professional services retained for baby-sitting. The fee will vary based on combination of available volunteer vs. professional services.

Rules for babysitting arrangement

- 1) Only children above 3 years of age and toilet trained can be accommodated.
Our teenagers are not trained to change diapers.
- 2) 5-6 children per teenager can be accommodated.
- 3) If a child is inconsolable, we advise the parent to take charge of the child.
- 4) The parent will need to take charge if a child misbehaves.
- 5) For any situation/ rules not covered in writing we sincerely request the parents to respect and follow the decisions of the organizers in the greater interest of the program.

Please abide by these rules to make the entire experience a good one for all of us.

Sincerely,

CTMM Committee
